

Adopt an Animal Program 2017

The Ruth Patrick Science Education Center is looking for sponsors to help support the cost of feeding and caring for the animals used in our K-12 educational programs. An individual, a business, or a group such as an elementary school class or a scout troop may adopt an animal. The sponsors' names will be displayed on donor recognition kiosks at RPSEC, and they will be recognized in the Center's publications and website as Friends of the RPSEC. Donations are tax deductible; sponsorship opportunities for January through December 2017 are listed below.
